To whom it may concern,

Ozone Laundry System at Clermont Nursing Home

Clermont Nursing Home has been managed by the Gordon Family in the historic Clermont Estate in Ryde since its opening in 1960. The nursing home currently has 55 High Care beds with plans to expand.

After an extensive review of ozone laundry systems, Clermont Nursing Home installed an EnviroSaver II Ozone Laundry System in our laundry in November 2007.

Since installation, we have seen a noticeable reduction in water, chemical, labour and energy costs and an improvement in wash quality. We would have no hesitation in recommending O3 Wash Pty Ltd and their product to other aged care providers, particularly under the Greening Grey Facilities program.

O3 Wash co-ordinated the support of our equipment supplier Advance Commercial Laundry Equipment (Girbau washing machines) and our Chemical supplier ECOLAB to ensure that the best possible laundry process was established with the use of ozone.

If you would like to discuss our experience with ozone laundry systems, then please feel free to contact the undersigned on 02 9327 4017.

Yours sincerely,
Clermont Nursing Home Pty Limited

Steve Gordon B. COM., LL.B., F.A.N.Z.C.N., F.T.I.A., A.F.A.I.M., A.F.C.H.S.E.
